Solar Eclipse On View at Observatory

"Eclipses," the Griffith Park Observatory planetarium show slated to be presented through Feb. 4, spotlights one of nature's most awesome spectacles, according to the Los Angeles City Recreation and Park Department.

Pointing out that planetarium shows are offered at 3 and 8:30 p.m. Tuesday through Sunday, with extra matinees at 1:30 and 4:30 p.m. on Saturdays and Sundays, Dr. Clar-ence H. Cleminshaw, the observatory's director, said that the current attraction features the total solar eclipse which will be visible on Feb. 4 at a point in the Pacific Ocean more than 800 miles south of Los Angeles.

A small partial eclipse of the sun will be seen in Los Angeles on Feb. 4 from about 4:55 p.m. until sunset, at 5:56 p.m., Dr. Cleminshaw says.

THE FEB, 4 total eclipse of the sun is now being repro-duced on the planetarium theater's 75-foot domed ceil-ing as a highlight of the municipal scientific center's cur-rent attraction.

The show also features dim-

outs of double stars and of Jupiter's four largest satel-

Nominal admission fees of 75 cents for adults and 30 cents for students under 18 years of age are in effect for planetarium theater shows. There is no charge for tours of the observatory's Hall of Science, which is open from 2 to 10 p.m., Tuesday through Friday, and from 1 to 10 p.m. on Saturdays and Sundays, Dr. Cleminshaw explained.
